local + NATURAL

It's not just a tagline. Everything on our menu has been thoughtfully sourced; from our naturally fed, hormone free Niman Ranch beef to our Heber Valley Artisan Cheese from Utah's only vertically integrated cheese producer. Our produce is from local farmers when possible. When not, we source from reputable U.S. producers with a track record for organic farming. Our breads are locally baked and never frozen.

Bottom Line: We want you to get to know your food a little better.
